During the academic year of 2018- 2019 all the final year B. Pharm students prepare herbarium sheets, from this activity students know the importance and used of herbs. At the end of the academic year of 2018- 2019 co- Ordinator of this event Dr. S. M. Kewatkar collected the total 67 herbarium sheets from final year students and distribute the certificates to all participants. <u>Drama for villagers</u>:-We conducted a social awareness drama in Marathi, highlighting the importance of education of a girl child, illiteracy, addiction of the villagers which was applauded by the villagers. The response of the villagers was over whelming.

<u>Medical camp</u>:-We conducted a day long medical camp for blood group detection, blood sugar Check-up and Body Mass index(BMI). Due to extensive propagation in the village we got an overwhelming response wherein 100 villagers attended the medical camp.

<u>Medicine awareness campaign</u>:- We conducted a day of medicine awareness campaign in the village by distributing hand bills to villagers by our volunteers. our volunteers interact with the villagers and told the importance of proper utilization of medicine, to avoid medication errors, adverse effect & drug interaction.

National Service Scheme Program

He has also introduced the growth of Indian pharmaceutical industry, i.e. market size of \$27.57 billion (2016) is expected to reach a mark of \$55 billion by 2020. In the next three years, India is projected to be among the top three pharmaceutical markets in terms of growth rate and the sixth largest market globally in absolute size. He has also introduced and explained in details about generic and branded medicines. He has spread a light on concept of drop-shipping in India, as it is still gaining momentum and penetrating deeper into markets. It is popular with larger e-retailers who want to minimise investments in stocking up inventories. Apart from bigger players, several retailers are also using this model extensively. A drop-ship based business also offers greater flexibility and allows the seller to test new markets without having to worry about unsold inventories. He has concluded his lecture with the comment that "Currently the industry is growing at a rate of 9-10% year-onyear, which is a healthy growth because this is largely a volume led business. This is a fundamental advantage of an emerging market economy like India. At the end of the session Mr. Deepak Bhusari has expressed Vote of thanks to Resp. He has also introduced the growth of Indian pharmaceutical industry, i.e. market size of \$27.57 billion (2016) is expected to reach a mark of \$55 billion by 2020. In the next three years, India is projected to be among the top three pharmaceutical markets in terms of growth rate and the sixth largest market globally in absolute size. He has also introduced and explained in details about generic and branded medicines. He has spread a light on concept of drop-shipping in India, as it is still gaining momentum and penetrating deeper into markets. It is popular with larger e-retailers who want to minimise investments in stocking up inventories. Apart from bigger players, several retailers are also using this model extensively. A drop-ship based business also offers greater flexibility and allows the seller to test new markets without having to worry about unsold inventories. He has concluded his lecture with the comment that "Currently the industry is growing at a rate of 9-10% year-onyear, which is a healthy growth because this is largely a volume led business. This is a fundamental advantage of an emerging market economy like India. At the end of the session Mr. Deepak Bhusari has expressed Vote of thanks to Resp.
