Percentage of teaching and non-teaching staff participating in Faculty development Programmes (FDP), professional development /administrative training programs during the last five years

Preamble

- A faculty development program and other STTP Programs or workshop are a crucial component at Rajarshi Shahu College of Pharmacy for enhancing the professional growth of educators in higher education.
- Institute take extreme effort to provide faculty members with opportunities for ongoing development and learning, and to support them in their roles as teachers, scholars, and leaders.
- The goal of a faculty development program or STTP Programs or workshop is to improve the quality of teaching and learning, increase faculty engagement, promote innovation and creativity, and foster a culture of continuous improvement within the academic community.
- Through such programs, faculty members can acquire new knowledge and skills, share their experiences and best practices with their peers, and collaborate with others to achieve common goals. A successful faculty development program requires the commitment of the institution's leadership, the participation of faculty members, and the availability of resources and support.
- The institute committed to academic excellence and recognize the importance of investing in the professional development on faculty members
- Basic Aim of institute is to provide opportunities to enhance teaching methodologies, research skills, and leadership abilities.

P. WADHWANI COLLEGE OF PHARMACY

Dhamangaon Road, Yavatmal 445 001, (M.S.)

Web : pwcpharmacy.edu.in

e-mail : pwcoplytl_yml @bsnl.in

About the Institute

An institute upholding pharmacy education while accepting the changing roles of a professional pharmacist is **P. Wadhvani College of Pharmacy (PWCOP), Yavatmal**. It is amongst the '**20 Best Institute of India**' & honoured as '**Most Promising Institute of India 2019**' by an International Magazine **Knowledge Review**. The college has won silver rating in **AICTE-CII survey of Industry Linked Technal Institutes 2018**.

The college was established in the year 1994 and is situated in Yavatmal district, Maharashtra. It is approved by AICTE, PCI, and DTE, Mumbai & is one of the premier institutions permanently affiliated to SGB Amravati University, Amravati. The college is recognized as a Centre for Ph.D. program by SGB Amravati University. The college has a 2(f) & 12 (B) status of University Grant Commission, New Delhi.

In the year 1994, PWCOP started offering Diploma in Pharmacy (D.Pharm.) education, followed by the introduction of Degree course in Pharmacy (B. Pharm) in 1997. It initiated postgraduate courses (M. Pharm) in 2006 in subjects including Pharmaceutics, Pharmaceutical Chemistry, Quality Assurance, and Pharmacology. The college has a lush green campus & glorious building with spacious, modernized, and high-tech classrooms, laboratories which are well equipped with sophisticated instruments, and library with more than 12000 books and 50 national & international journals. The college has received significant financial assistance from CSIR, DST,ICMR, UGC, AICTE, and other funding agencies to carry out various research projects, organize national seminars, and modernize the laboratories. Workshops, quality improvement programs and seminars are timely organized to hone the skills of PG students and faculty with such financial support. The college publishes its own open access international journal 'International Journal of Research in Pharmaceutical Technology' for Pharmaceutical Scientists.

About the conference

The field of Genomics & Pharmacogenomics is growing rapidly and its development is making tremendous impacts in medical sciences and pharmaceuticals. Pharmacogenomics uses information about a person's genetic makeup, or genome, to choose the drugs and drug doses that are likely to work best for that particular person. Genomic research has changed that "one size fits all" approach and opened the door to more personalized approaches for using and developing drugs. This new field combines the science of how drugs work, called pharmacology, with the science of the human genome, called genomics. It has made huge advancements over the course of time and is continuing to influence various sectors.

genetic makeup, a form of 'personalised medicine'. This conference will upgrade professionals engaged in pre-clinical & clinical aspects of drugs with changed perspectives. It will also provide an opportunity to upgrade their knowledge of drug and thereby will help them go a long way in drug research using genomic & pharmacogenomic approaches.

This conference will be organized and conducted in order

- ➔ to understand how genomic information can be used to develop more personalized and cost-effective strategies for using drugs to improve human health.

- ➔ to lead to better ways of using drugs to manage heart disease, cancer, asthma, depression and many other common diseases.

- ➔ to produce new drugs that are highly effective and do not cause serious side effects.

- ➔ to create a huge platform for scientists, professors, students and delegates to share their ideas and innovations and in turn enhance the progression of science and technology in both business and academia around the world.

- ➔ to bring together a unique and international mix of genome researchers, geneticists, molecular biologists, health-care industrialists, leading universities and research institutions making the conference a perfect platform to share experience, foster collaboration across industry and academia, and evaluate emerging technologies across the globe.

Target Audience

This conference is targeted to students (B. Pharm, M.B.B.S., B.Sc., M Pharm, M.Sc., M.S. Scholars), Academicians, Scientists, & Doctors who wish to get updated with this area.

Resource Persons
