

Test Report Form

ACADEMIC

NOTE Admission to undergraduate and post graduate courses should be based on the ACADEMIC Reading and Writing Modules.
GENERAL TRAINING Reading and Writing Modules are **not** designed to test the full range of language skills required for academic purposes.
It is recommended that the candidate's language ability as indicated in this Test Report Form be re-assessed **after two years** from the date of the test.

A LEADING AMERICAN UNIVERSITY WITH INTERNATIONAL REACH
DEPARTMENT OF CHEMISTRY

Amol Nanduji Jaybhaye
'Krishna', Plot No. 10/2,
I.T. Park, Opp. V.N.I.T,
Behind Infotech Tower, Parsodi
Nagpur 440022 India
Dear Amol,

4/29/2019

We appreciate your interest in the Department of Chemistry at Western Kentucky University (WKU). Our graduate admissions committee has completed its review of your application to our graduate program in Chemistry, including your undergraduate performance, GRE or other test scores (TOEFL or IELTS, as appropriate/applicable), and other supporting materials. Based on this review, it is my pleasure to inform you that **you have been accepted into the Master of Science in Chemistry Program at WKU beginning in the fall semester of 2019**. You should receive an official email or letter of notification from the WKU Graduate School very soon if you have not already.

Enrollment capacity in our graduate program is limited for the fall 2019 semester; therefore, **please provide us with written notification of your decision to accept by May 6, 2019** (email is acceptable). **If acceptance is not received by May 6, 2019 the offer may be withdrawn**. We would very much like to have you in our program; however, prompt notification will be appreciated should you decide to decline our offer, so that we may offer your spot to another applicant.

We are pleased to offer you **up to \$14,000** in financial support for the 2019-2020 academic year in the form of a graduate assistantship. A **portion of this amount** will be used as a **tuition waiver**. If you accept this offer, **you will need to tell us how much you would like to use towards a tuition waiver**. The tuition waiver can range from \$1,000 to \$3,500 per semester. Any unused portion of the tuition waiver will be retained in our assistantship and tuition waiver pool. Another **portion of the financial support will be paid as a stipend** ranging from \$3,500 to \$6,000 for the semester, based upon the amount of tuition waiver you choose. You have until **May 6, 2019** to accept our assistantship offer. The details of your graduate assistantship duties will be finalized by August 15, 2019, if not sooner. While serving as a graduate assistant, you are expected to take a full load of classes – usually three graduate classes (3 credit hours each) and a graduate seminar (0.5 credit), with the expectation of reduced credits in your last semester before completing your degree. The **minimum class load required to receive an assistantship is six credit hours per semester**, except in the last semester. Continuation of your assistantship will be reviewed at the end of each semester, and continuation is subject to satisfactory performance in your classes, research, and assistantship duties.

If you accept our offer for admission and a teaching assistantship, then we will provide you with a specific report date required for timely completion of employment paperwork. This report date is **August 16, 2019**. If you are unable to arrive by this day, we must be notified at the time of your acceptance of our offer. Scheduled orientations by the Department of Chemistry, International Student Office, and the Graduate School at WKU will take place from **August 19-23 and are mandatory**. Timely completion of the Graduate Assistant Teaching Institute (**GATI**) **program is also required** for all teaching assistants.

If you have questions as you consider your options for the fall, please do not hesitate to contact me, Dr. Eric Conte, or Ms. Haley Smith to provide whatever answers we can. Congratulations, and we look forward to hearing from you.

Sincerely,

Dr. Stuart Burris
Department Chair
Department of Chemistry
Western Kentucky University
